## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 9-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 is rejected to because claim 8 depends from claim 7 which has been cancelled

In claims 9-13, the term "patient circuit" is unclear as to what element of the invention that is being claimed by Applicant.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000.

Art Unit: 3743

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Gradon (U.S. Patent No. 6,615,834). Gradon discloses a mask shell (102), a forehead support (106) and a support arm (Fig. 4—shows a component which extends upwardly from the mask shell 102). Gradon further discloses a connecting assembly (Fig. 4—discloses a component positioned at the forehead support 106 which serves to connect the support arm to the forehead support).

Claim 14 and 16-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Genger (EP0958841). Figs. 1-2 of Genger disclose a flexible headgear strap (42), a forehead support bracket (48) having a first and second slot. The headgear strap threads in the first and second slots to connect the headgear strap to the forehead support bracket such that the headgear strap spans a length of a patient's forehead to define at least a portion of a cushion between the forehead support bracket and a patient's forehead.

Regarding claims 16-17, since these methods can occur in any particular order, the Office takes the position that the forehead support may be connected to the forehead support bracket. Next, the upper headgear strap may be donned on a head of a patient.

***Allowable Subject Matter***

Claims 2-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
